Place: **Wex Trust building

Date: **Monday, April 14, 2014**
Schedule: **6:00 PM CDT - Proposed Permit Presentation & Public Hearing**

Public comments will be received concerning the proposed permit actions described below. The proposed permits contain limitations on the amounts of pollutants to be discharged, in accordance with Federal and State standards and regulations. Permit conditions are tentative and subject to public comment. Tennessee is noticing a public hearing due to a request for public hearing received on March 6, 2014.

A National Pollutant Discharge Elimination System (NPDES) permit is proposed by the Tennessee Department of Environment and Conservation (TDEC) for discharges of construction site runoff from mass grading activities for disturbance of total of 560 acres. The application for the permit was received from the Industrial Development Board of Montgomery County. Discharges to be authorized by this permit are associated with grading, drainage, and utility improvements for a future Hankook Tire production facility from outfalls SW1, SW2, SW3 and SW4 to sinkholes on property, Spring Creek and Red River. The proposed facility is located at an existing industrial development site adjacent to International Boulevard and Rossview Road, Clarksville, TN 37040, in Montgomery County, Tennessee.

At 6 p.m., TDEC staff will provide brief presentations about the proposed permits and the formal public hearing will begin. Once the formal public hearing begins, all public comments will be collected for the hearing record without response from TDEC staff during the formal public hearing.

The hearing officer may limit the length of oral presentation in order to allow all parties an opportunity to speak. The department may consider only comments relative to water quality in making final permit determinations. TDEC will accept written testimony at the hearing and for ten (10) working days following the hearing through April 28, 2014. Oral testimony at the hearing and written testimony received through April 28 will be considered part of the public comment period.

To comment on these permit issuance or proposed conditions, submit oral or written comments at the public hearing or submit written comments to TDEC-DWR, William R. Snodgrass Tennessee Tower, 312 Rosa L. Parks Avenue, 11th Floor, Nashville, TN 37243. Comments should be received no later than 11:59 p.m. April 28 and should include the applicant name and permit number. TDEC staff will provide

written responses to all oral and written comments following the public comment period prior to making a final determination on the permit actions.
